

Capability Statement for Adaptive Assessment Services

The ACT Center at Adaptive Assessment Services (AAS) is a business process outsourcing agency specializing in human resources research and development, testing, training, and professional certification. AAS creates innovative, cost effective, web-based solutions in meeting the HR needs of clients. We also provide computer-based certifications in oil, gas, and chemical refining, automotive services, HVAC, social work, compliance standards assessments, and many more areas, including the Louisiana WorkReady! Certification. We leverage scientific methods to increase productivity, lower costs, and maximize return on investment.

AAS Staff

- 2 PhDs, 2 MBAs, and 2 Certified IT Professionals
- Published research in internationally recognized journals

AAS Services

- HR Software Design (cost-effective web-based testing/training software)
- HR Training (virtual 24/7 environment over the Internet)
- HR Research (scientific validation studies of HR systems, surveys, EEOC/OFCCP compliance reviews, and HR litigation support)
- Item Generation (artificially intelligent creation of new test questions)
- State of the Art Computer-Based Testing/Training Facility (ACT Network)

Notable Adaptive Assessment Services Experience

- International Business Machines – managed and validated international computer-based/paper & pencil testing programs in emerging markets
- Educational Testing Service – developed and implemented computer simulation of high stakes test administrations
- New Orleans Police Department – developed and implemented the first Internet-based video simulation for police sergeant promotion after Hurricane Katrina
- Dallas Technology Institute (Project Turn Around) – managed career development program for evacuees of Hurricanes Katrina and Rita
